

## DIESEL OF THE YEAR 2015

On April 20th at 2 pm in the opening day of Intermat exhibition in Paris, in front of an audience composed by international press, institutional actors and business operators, the editorial staff of DIESEL magazine awards **KOHLER KDI3404TCR SCR** as **“DIESEL of the Year 2015”**.

Established in 2006 the “DIESEL of the Year” award, represents the most prestigious international recognition dedicated to industrial engines.

Evaluation standards are innovation, specific performance, respect of pollution rules, components, potential application in industrial market.

Selection, analysis final judgment are completely carried by DIESEL magazine.

DIESEL magazine was born in 1986, since then, development, manufacturing and applications of diesel engines are the main themes of the magazine.

After viewing the Kohler’s 3.4 liter and after analysing its positioning in the free engines market, the decision to award the KDI3404TCR SCR is based on the following reasons:

- It has gone over the 56 kW limit.
- Kohler has now the chance to power applications in the fundamental 70/100 kW range.
- Scr module is developed for the Stage V future upgrades.
- The definitive step into Kohler’s era.
